GENERAL DESCRIPTION OF THE PROJECT AND BACKGROUND ON USER(S) OF THE FACILITY
(Attached additional sheets as necessary)

Vigneri Chocolate will invest \$3.5 million due our exponential growth. \$2.5 million investment covers renovations and customization of a new plant facility at Main Street, Rochester. Vigneri Chocolate is also investing \$1 million in new Manufacturing Equipment. This new strategy will create up to 40 local jobs; they will transform into 350 roles across the supply chain given our industry ripple effect (1:7 ratio) on job creation. Our expected result is to expand production and distribution capacities to reach mainstream brand awareness in a national level, along introduction to foreign markets.

The Vigneri Chocolate expansion project is a genuine asset to Rochester; we aim to cross a threshold of \$2 million dollars in sales by year one. Besides being a job generator project, the new plan facilities include an Experience Center to bring tourists in, an Innovation Center for new product development, and a small Chocolate Gift Shop/Cafe to serve both visitors and locals. Approximately only 2,000 square feet of the overall 40,000 square feet will be designated to the Experience Center area and will be used to educate tourists, while gathering data for Research & Development purposes. These efforts aim to foster growth for our local economy. Additionally, a visitor-friendly manufacturing plant in Main Street Rochester contributes to the community revitalization of the area.

Vigneri Chocolate new manufacturing center is focused on enhancing downtown living and quality of life by becoming an active go-to place for locals and tourists in our region. The project results as a robust mix of business (manufacturing plant) and experiential learning (Experience and Innovation Centers) that fuse with dining (Café) and retail (Gift Shop) opportunities. Employment-wise, these five areas provide a variety of job opportunities for a wide range of skills with equally varied salary ranges.

Vigneri Chocolate is forecasting 18 months to complete constructions and renovations. This project will be supported by a \$620,000 grant from the Empire State Development, but still need Incentives asked with this application to be able to move forward due to the project size.
